

## Music That's Making a Difference!

### The BIGGEST Celebration in the UK on World Vegan Day!

We are delighted to announce that Julian Franks World Vegan Day concert and album launch was so successful that extra seating had to be brought in! The atmosphere was electric and was complemented by Julian's original film footage taken in India and Nepal.

The concert was so successful that it will now be turned into a UK tour.

Many of the 17 artists on the album performed live and during the evening and Julian also **shared the stage with his two sons**, Joel on guitar and Krista on bass - both talented musicians. The packed audience queued for CD signings and guests involved with promoting World Peace and Environmental issues spoke to members of the public too.

Vegan Brighton man, Julian has been inspired by his own travels to India and Nepal and his **independent first album** was officially released on 1<sup>st</sup> November to coincide with **World Vegan Day**.

Gary Carter, voted No1 Yoga teacher in Brighton (The Insight Magazine November 2004), said: "**Julian you have a way of bringing together amazingly talented artists and giving them a chance to just shine, it was a fantastic night.**"

The launch & free concert was held in collaboration with the **Brighton Peace & Environment Centre** at the Sallis Benney Hall, Brighton University, Grand Parade, Brighton.

For more information, photos and to interview Julian please contact:
